

Digital-Workplace & Collaborative DMS

GoFAST
by CEO-VISION

DMS | Collaborative Office Suite | Powerful Search
Workflows and Tasks | Signature | Chat & Web-conference
Easy Access Right mgmt | Highly Secure & Open Source

www.ceo-vision.com

Meets business, office and telecommuting needs!

Process documents from model to e-signature: contracts, public bids, minutes and reports, budgets, quality processes, agreements, invoices, letters ...

Manage knowledge bases, repositories, project spaces, sharing with customers, partners and external parties, Wiki, forums ...

Centralize all documents and related exchanges which are dispersed between servers, PCs, mailboxes, tablets, files on a public Cloud ... and be able to easily follow the activity according to their access rights.

Achieve the goals of: zero paper, zero attachments, fewer emails, zero file duplicates, zero version errors, zero time wasted searching for information.

Access your entire working environment from any PC/Mac/Linux wherever you are, without depending on a VPN, without installing anything, not even the MS-Office pack

Dematerialize business workflow (including the legal eIDAS signature), simplify the life of managers, promote best practices and telework as if you were in the office.

Facilitate mobile use on Tablet / Smartphone.

The best of Open Source combined in a single solution:
DMS, Collaborative Office Suite, Workflows and Tasks, Search,
Webconference, Chat, other Exclusive features, ...
Replaces the obsolete file server,
as well as Office365-SharePoint-Teams, Google Workspace, Alfresco ...

GoFAST Value Proposition and Key Differentiators ...

DMS + TEAMWORK

Unified solution VS "application library"
as O365: telecommuting and more
efficient collaboration.

START IN 24H

Platform installed and operational
within 24 hours, quick handling of
essential functions.

COMPETITIVE PRICE OFFER

2 to 10 times cheaper than Office365-
Teams-SharePoint and Google
Workspace, and more efficient!

SECURITY AND SOVEREIGNTY

Your data, your dedicated platform in
private SaaS or OnPremise (« Cloud Act
free »)

SIMPLE WORKFLOW MANAGEMENT

Access to content managed by the
business, with separate system
administration (GDPR).

ALL SERVICES ONPREMISE

Security, supervision, maintenance, all
updates and support in the SaaS and
OnPremise offer.

GoFAST: The "Document-Centric" Digital Workplace ...

Innovative solution with : real DMS, Workflow engine, Shared tasks (Trello type), Collaborative Office Suite, e-signatures, Powerful search engine, Chat, Web-conferencing ...

Sovereign (dedicated instance) and open source, **relevant alternative to Office365-SharePoint-Teams** and Google Workspace, **GoFAST replaces the obsolete file server for a more efficient** and collaborative **experience** than with GAFAM (Google, O365, ...)!

Simple full-web interface to learn and a 100% integrated platform with **all its tools just a click away**: no more collection of applications and silos of information.

Standardized platform to avoid specific costs, which integrates with your dematerialization solutions, e-signature, Record Mgt, Intranet, ERP and other business tools.

Open Source Technology and Community: sustainability, responsiveness, technological standards and auditable source code to guarantee the security of your data, both in sovereign dedicated SaaS and OnPremise.

CEO-Vision SAS expertise

Software Publisher specializing in new collaborative uses, document management and the dematerialization of business processes to support the digitization of Organizations.

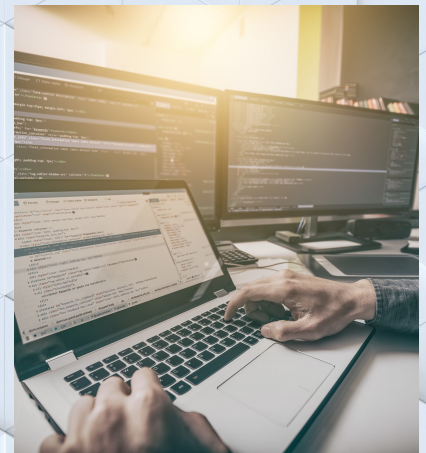

Beyond the software, the CEO-Vision offer relieves the IT department with a "SaaS-Onpremise" type approach (watch, security, supervision, maintenance, updates, support) and support in the Digital Transformation .

Regain your digital sovereignty ...

GoFAST Digital Workplace is the alternative to:

GoFAST gives worldwide companies and public organizations the opportunity to **regain their digital sovereignty**. With the "OnPremise / Colocation" offer and **sovereign hosting partners**, the GoFAST solution is "Cloud Act Free" with a very high level of confidentiality.

Among GoFAST client-users ...

Public organizations, Key Accounts and SMEs have chosen GoFAST for the day-to-day management of their content and the optimization of specific projects.
